

March 2024

Skyguide at Airspace World 2024

Visit us at booth #J21 and discover how we pave the way in a changing ATM industry

Skyguide will exhibit together with SkySoft-ATM and WEYTEC at the Airspace World in Geneva – the largest and most influential airspace and near-space management event in the world!

We are delighted to join industry innovators from 19th to 21st March 2024 to introduce the recent developments of our professional air navigation related services:

SKYRF CNS DRONE

Using drone technology for CNS measurements to achieve more accurate results in a time and cost effective manner

DLS COCKPIT

End-to-end monitoring and fault analysis of the CPDLC service quality in real-time through a user-friendly search engine and customizable dashboards

PROCEDURE AND AIRSPACE DESIGN

Improvement of operational performance in the field of IFP and airspace structure. Skyguide provides design, verification and maintenance of flight procedures and/or airspace volumes

ATC/ATM TRAINING AND PEOPLE DEVELOPMENT

Tailor-made trainings with a strong focus on people development and covering all areas of air traffic management

Want to meet one of our experts? Book your slot right now!

Our newest R&I project:

We are constantly optimizing the quality of our air traffic controller training and seek to exploit technological trends. During the Airspace World we present the results of the investigation of this joint initiative between Skyguide, and its partners UFA and Brunner Electronics.

Gain first-hand insights into the challenges and successes encountered in the **practical use of XR-based simulations**.

MORE INFORMATION ON EXTENDED REALITY IN ATC TRAINING

Our theatre program

TUESDAY 19TH MARCH

11:00 - 11:25 (Frequentis Theatre)

ATM Virtualisation, the journey of a first mover with Urs Lauener, COO

12:00 - 12:50 (Boeing Theatre)

Panel Discussion: Seamless Cross-Border ATM Operations with Alex Bristol, CEO

[View the complete schedule of day one](#)

WEDNESDAY 20TH MARCH

11:30 - 11:50 (Indra Theatre)

Drone-based CNS measurements for enabling new possibilities with Hervé Demule, Navigation Engineer

[View the complete schedule of day two](#)

Our rising stars

We are proud to announce our nomination in two categories: "Re-imaging ATM Operations" for our innovative **PBN Implementation for Qatar FIFA World Cup 2022 and post FWC**, and "Greener Skies" alongside Intersoft Electronics for **CNS Drone SkyRF**.

These nominations highlight our commitment to advancing air traffic management through innovation and sustainability.

The winners will be announced on **19th March at the CANSO stand at 4.00pm**.

Meet us at the Swiss Apero

We kindly invite you to our Swiss Apero at our booth!
Join us on **Tuesday or Wednesday at 4.00pm** to taste some Swiss specialties.

Just drop in - no registration is required.

Join our live demos

19 March
05:00pm
